

E-tec offers any configuration.

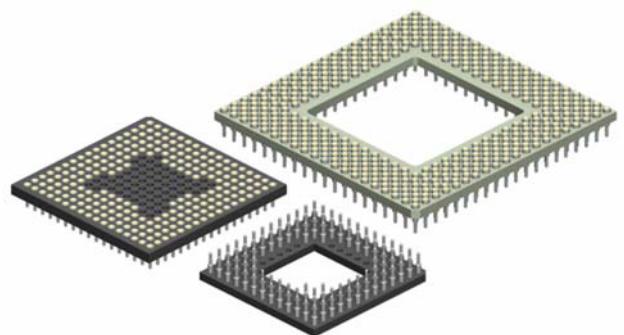

You may choose between open frame and closed frame socket bodies.

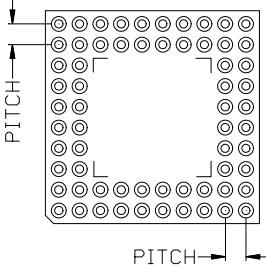

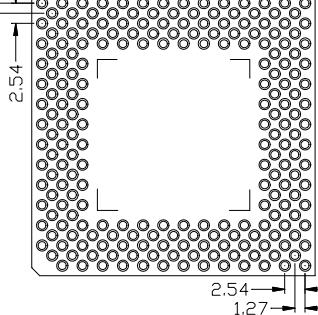

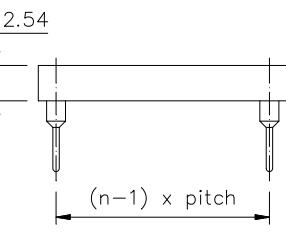

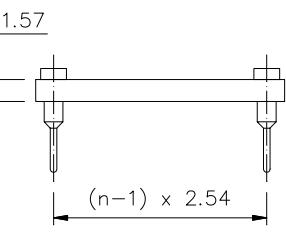

The E-tec PGA sockets with Insulator code "S" will be supplied either in plastic or FR4 Epoxy depending on material availability.

If you wish to receive the sockets in FR4 Epoxy material only, then you need to specify the code "E" in the order code.

If you only accept plastic, then you have to request E-tec for availability first.

All interstitial PGA (PGI) and Mini-Grid sockets (MGS) in any grid size and standard PGA sockets with grid size 19x19 or higher are delivered in FR4 Epoxy only.

Series PGA & MGS	Series PGI	Plastic insulator dimensions	Epoxy FR4 insulator dimensions For PGI Sockets generally
<p>Pitch 1.27mm (.050") or 2,54mm (.100")</p> 	<p>Interstitial zig-zag pitch 2,54mm/1,27mm (.100"/.050")</p>
